

Researcher Resources

1

Once you have logged into MyHud, navigate to My research either by using the tile on the home page or the menu bar at the top.

2

The screenshot shows the 'My Research' page in MyHud. The page layout includes a top navigation bar with 'My Research' and other menu items. Below this is a 'My research information' section with project details. The main area contains a grid of tiles for various functions: Progress report submission, Submit my thesis, Researching from home, New Researcher, Buy more print credits, Print credit, My details, Research repository, PGR programme handbook, PGR regulations, Student rules and handbook, News and events, and My contacts. A red circle highlights the 'PGR programme handbook', 'PGR regulations', and 'Student rules and handbook' tiles. Below the grid, there are social media icons and a 'News and events' section. Callout boxes provide descriptions for these features:

- Your research information.
- Hints and tips for new researchers.
- Print credit balance and top up information.
- Information regarding ethics, research methods and plagiarism.
- Submit your progress report online in Brightspace.
- Submit your thesis to Turnitin via Brightspace.
- Everything you need to study off campus.
- Digital collection of all the University's research outputs.
- Specific PGR information including support and more.
- Your contact details.
- Your research contacts.
- Research news and events.
- University news, events and social media.
- PGR Handbook, Regulations and University policies.

3

Researching from home

Everything you need to complete your research off campus. Access to your personal storage, Uni desktop, with free office 365 software for researchers. There is also access to Summon and the University repository.
