

Allotment Storage Box Information

Congratulation on adopting your planter! To help you grow whatever you have planned, there is a storage box located in your allotment area.

Storage Box Locks

Each box has a lock on them. The code to open them is: **2023**

Please kindly keep this code to yourself as we don't want equipment to go missing-thank you.

To **open** the padlock, line up the code numbers on the red edge as per the picture on the right.

To **lock** the padlock, push the shackle (hoop) down and mix up the numbers)

If you find a padlock missing, or broken then please report this to sustainability:

sustainability@hud.ac.uk

Storage Boxes

- Inside the storage boxes you will find all the tools and equipment you should require for your planter including:
- Trowels
- Spades
- Compost bucket (there is a compost located at the Lockside Planters)
- Watering can
- Disposable gloves (please note we have provided disposable gloves for hygiene and allergy reasons, if you prefer gardening gloves then please provide your own)

Happy planting!!
