

University of Huddersfield - Health and Wellbeing Academy

Privacy Notice

General Information

The Health and Wellbeing Academy at the University of Huddersfield offers a range of services to support the health and wellbeing of the community of Kirklees and surrounding areas.

We work with a range of partners including the NHS, charities, and local businesses to provide services which support our community to make informed and positive lifestyle choices to improve their health and wellbeing.

Research underpins our work and draws on the strength of the School of Human and Health Sciences, enabling us to provide service excellence and world class teaching and learning opportunities aimed at maximising benefits to the wider community.

Our services

The Health and Wellbeing clinical services complement the provision of the NHS, other local health and social care providers.

Get Set Goal

Get Set Goal is a free service delivered by healthcare students that offers a series of one-to-one appointments and group workshops, focussing on improving your general health and wellbeing. The service is for members of the public and University of Huddersfield Students who would like support in making positive changes to their lifestyle. The students are supervised by a registered healthcare professional.

Podiatry Clinic

The Podiatry Clinic has state of the art clinical facilities comprising of a multi-chaired clinic, orthotics lab, gait analysis and surgical theatre suite. The clinic is staffed by our Podiatry students under the supervision of academic staff who all hold professional qualifications in podiatry.

The Podiatry Clinic is open to anyone including children with a lower limb problem (insert link for Children's Privacy notice) and accepts direct self-referral in addition to referrals from other healthcare professionals.

Gait Clinic

University of Huddersfield Sports science and health care students, overseen by a team of highly experienced bio mechanists, physiotherapists and podiatrists, will conduct comprehensive gait assessments. This could include learning about any musculoskeletal pain and dysfunction, doing a comprehensive examination and using advanced tools such as force plates, pressure plates, and 3D motion capture system, to build a detailed picture of your movement function. The Gait Clinic

aims to identify the causes of foot, ankle, knee, hip or back pain using state of the art equipment which includes motion-capture cameras, embedded force plates, sensors that measure the electrical stimulus to muscles, an isokinetic dynamometer, metabolic gas analysis systems, in shoe pressure measurement.

Mobile Clinic

Our mobile clinic allows us to provide basic health checks in the community and at public events.

Our health checks include blood pressure, temperature, oxygen saturations, respiration, and pulse.

Purpose of Processing Care and Wellbeing Support

Our purpose is to provide a range of care and wellbeing services to meet the individual needs of members of the public who require health and wellbeing services to live well, providing support, advice and information both on site at the University of Huddersfield and out in our communities.

Research

As a university, we conduct research for the public benefit, and we may use your data for the purpose of research. Where possible this will be in an anonymised and aggregated format, however, if we wish to use your identifiable information, we will ask for your consent to use your data this way.

Updating our Privacy Notice

We keep this notice under regular review to ensure that it is up to date and accurate.

Security of your information

Data protection legislation requires us to keep your information secure. This means that your confidentiality will be respected and appropriate technical and organisational measures will be taken to prevent unauthorised access and disclosure in accordance with the University's [Information Security Policy](#)

We keep your personal information for no longer than is necessary to fulfil the purposes for which it was collected. We will take into account any laws or regulations that we are required to follow, whether we are in a legal or other type of dispute with each other or any third party.

Organisations processing personal data on the University's behalf will be bound by an obligation to process personal data in accordance with Data Protection legislation. **These data processors include:**

- Microbiology
- University of Huddersfield Medical Centre
- GP Surgeries
- Referrals or transfers from other organisations or services such as the NHS, care homes, charities, or local companies

How will your information be used?

The University of Huddersfield has a [Data Protection Policy](#) which should be read in conjunction with this Privacy Notice.

As professional Healthcare workers, we have a duty to be mindful of safeguarding in accordance with the University's Safeguarding Policy, which means we may need to share your data with relevant safeguarding authorities if we have concerns about a child or vulnerable person.
